

# AQUAVET

## Activity O5-A1

*Compiling evidence on the validation of the  
AQUAVET curriculum*

### **TRAIN THE TRAINER**

**FORM 4: TRAINING EVALUATION FORM**

**TRAINER**

**NILHR**

February 2017

**Country:** ES/GR

**Responsible organization for the Train The Trainer:** CONAIF/NILHR

**Trainer :** .....

**Date: :** .....

**To be completed by the trainer who conducts the Train the Trainer, by marking the relevant box with a tick.**

|  | Strongly agree | Agree | Neither agree nor disagree | Disagree | Strongly disagree |
|--|----------------|-------|----------------------------|----------|-------------------|
| The Train the Trainer seminar was realized according to the programme  |                |       |                            |          |                   |
| The learning objectives were met   |                |       |                            |          |                   |
| I use the learning material as it was  |                |       |                            |          |                   |
| I adapted some of the learning material  |                |       |                            |          |                   |
| The learning material was well comprehensible by the trainees  |                |       |                            |          |                   |
| The training process allowed trainees to practice skills related to important aspects of the curriculum            |                |       |                            |          |                   |
| Exercises were an effective way for trainees to apply “hard” and “soft” skills                                     |                |       |                            |          |                   |
| Trainees were actively engaged in the training   |                |       |                            |          |                   |
| The time devoted to case studies and other interactive activities was sufficient                                   |                |       |                            |          |                   |
| The equipment provided for the exercise was adequate   |                |       |                            |          |                   |
| MOOC was very helpful for teaching technical aspects of water efficiency technology                                |                |       |                            |          |                   |
| Practical exercise during the assessment allow trainees to demonstrate their achievement of the learning outcomes. |                |       |                            |          |                   |
| <b>Please use the space below to :</b>   |                |       |                            |          |                   |
